About Company

Ai Trade is an exciting place. The one good thing about entering into the forex market is that you can trade anytime as per your convenience.

The global Trading market is the largest market in the world as measured by the daily turnover with more than US\$5 trillion a day eclipsing the combined turnover of the world's stock and bond markets. The forex market measuring a propelling turnover is one of the many reasons why so many private investors and individual traders have entered the market. The investors have discovered several advantages many of which are not available in the other markets.

What is Trading ?

Trading (in simple terms, currency) is also called the foreign exchange & Currency trading. It is a decentralized global market where all the world's currencies trade with each other. It is the largest liquid market in the world.

The liquidity (more buyers and sellers) and competitive pricing (the spread is very small between bid and ask price) available in this market are great. With the irregularity in the performance in other markets, the growth of forex trading, investing and management is in upward trajectory.
